

## TO MTF

### MTF Edge Phantom

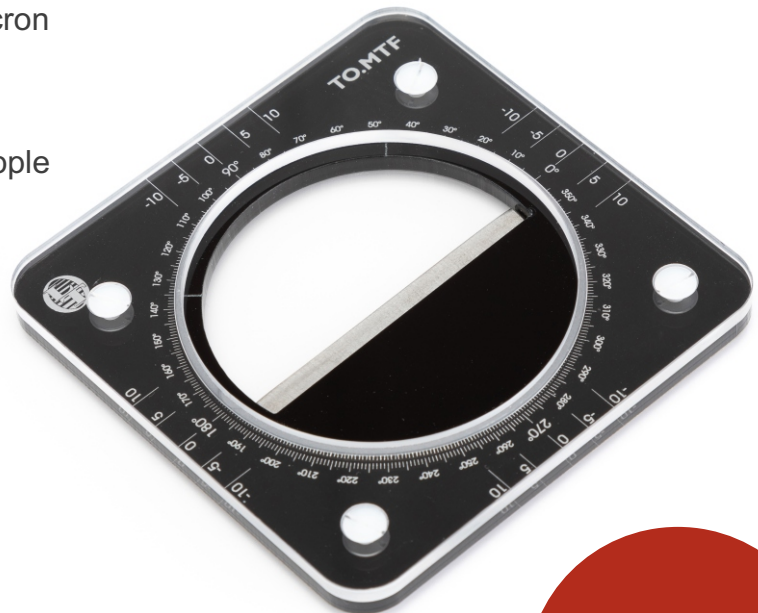

Leeds Test Objects' TO MTF is an X-ray quality assurance phantom comprising an angulation wheel and a choice of Tungsten (W) plates which allow the user to check the modulation transfer function (MTF) of an x-ray imaging system.

Designed to meet the critical aspects of IEC standards; **62220-1:2004**, **62220-2:2007** and **62220-3:2008** with the particular exception of the length of the edge which is 50mm.

#### Comprises:

- Angulation Wheel
- Single edge block in 1mm Tungsten (W) with max 5 micron ripple
- Dual edge block in 1mm Tungsten (W) with max 5 $\mu$  ripple

TO MTF is supplied in a protective carry case.

**FREE  
Software  
Included!**
